

**Subject:** Medical Science Liaison (MSL) Notes - In-Depth Discussion on NeuroGlyde

**Date:** May 5, 2023

**Provider:** Dr. Sarah Mitchell

**Title:** Geriatric Psychiatrist

**Institution:** Harmony Senior Care Center

**Summary of Key Discussion Points:**

**1. Introduction:**

- Discussed NeuroGlyde's potential impact on cognitive decline in elderly patients.
- Emphasized the importance of addressing neuroprotective strategies in the aging population.

**2. Provider's Current Patient Cases:**

- Explored Dr. Mitchell's experiences with NeuroGlyde in managing cognitive impairment in geriatric patients.
- Discussed improvements in mood and cognition observed in Alzheimer's patients.

**3. Efficacy and Clinical Data:**

- Presented data showcasing a 50% reduction in cognitive decline progression rates.
- Highlighted NeuroGlyde's role in improving neuropsychiatric symptoms in elderly patients.

**4. Safety Profile:**

- Discussed the favorable safety profile of NeuroGlyde in elderly populations.
- Addressed concerns related to drug interactions and polypharmacy.

**5. Mechanism of Action:**

- Explained NeuroGlyde's unique mechanism targeting neuroinflammation and oxidative stress.
- Quantified improvements in executive function and memory recall based on recent studies.

**6. Patient Adherence and Education:**

- Explored strategies for enhancing patient adherence in the geriatric population.
- Shared tailored educational materials suitable for elderly patients and their caregivers.

**7. Emerging Research and Future Developments:**

- Highlighted ongoing research on NeuroGlyde's potential in preventing cognitive decline in aging individuals.
- Discussed plans for real-world evidence studies in geriatric psychiatry.

**8. Competitive Landscape:**

- Compared NeuroGlyde to current therapies for cognitive decline in the elderly.
- Discussed NeuroGlyde's potential cost savings in long-term care settings.

**9. Access and Reimbursement:**

- Provided updates on access and reimbursement programs specific to geriatric care facilities.
- Shared information on Medicare coverage for NeuroGlyde.

**10. Action Items and Follow-Up:**

- Dr. Mitchell expressed interest in educational sessions for the Harmony Senior Care staff.
- Agreed upon a follow-up in three weeks to coordinate an on-site educational session.

**11. Closing Remarks:**

- Expressed gratitude for Dr. Mitchell's dedication to geriatric mental health.
- Reiterated commitment to supporting Harmony Senior Care in providing optimal care for their residents.
